“CanonPhotomathon 2018” 3rd in Student Category Theme: my community

The sun blooms on the horizon, golden petals stretching ever outwards into the rich blue. It is the brilliant flower of the sky that warms our days. The sun, like plastic, is essential in our daily lives. It provides a simple solution for our needs. However, herein lies the problem as unlike sunrise which lasts for only a few short minutes, plastics will haunt the oceans for centuries.
