

My Cambridge Application & AAIF - 2023

Headsup!

1. My Cambridge Application

- *My Cambridge Application* is the supplementary form that Cambridge applicants need to fill in, **after** UCAS is submitted by your CTs. You will be pinged by your Cambridge college directly, so ensure you check your email (which you used for UCAS) regularly, especially after 16th Oct.
- Refer to the link published by Cambridge for more details:
<https://www.undergraduate.study.cam.ac.uk/apply/how/cambridge-application>
- Ensure you **fill in and submit the necessary by the deadline stipulated by your college**. In most cases, this is **23 Oct 2023, 6pm UK time**.

To prepare ahead of time:

- **Photograph:** [a digital passport-style photo of yourself](#)
- **Transcript:** One clear, coloured PDF scan of your: Sec 4 final results (IP Sec 4, or GCE O levels), Year 5 Overall Results. Alumni: You will also include your official GCE A-level cert in your PDF. Submit this in the appropriate Education section.
- If you have added relevant qualifications, e.g., STEP results, you can PDF and submit them under *Other Qualification*.
- **Additional statement:** Note that in this form, you will have the opportunity to put in a short additional statement (this is on top of UCAS). Only use this if relevant to you. It is not necessary otherwise. E.g.: if you are applying for Natural Sciences, and your UCAS statement focused on Biology only, it would be good to use this space to highlight your *other* strengths in Maths/Physics/Chem.

Note: Cambridge indicates that the *My Cambridge Application* will take just about an hour to fill up. As such, the above should suffice. Should there be a need for more details, HEO will publish an additional guide to help students along as necessary then. Watch out for this, on IVY (Y6) or open web (alumni), in mid-Oct. Otherwise, you are expected to be able to complete this on your own, following guidance from Cambridge itself.

All the best,

HEO
